

# Patricio Stickar

 Full-Stack Developer

 +49 162 334 3348  pstickar@gmail.com  Europe

 [LinkedIn](#) |  [GitHub](#) |  [Portfolio](#)

Analytical thinker and versatile Full Stack Developer with a background in Life Sciences. Experienced in developing user-friendly applications in JavaScript using React, Redux, Node, Express, and Postgres under a Scrum methodology. Team-oriented personality as it is the key to success, determined and results-driven. Independently developed a website for my family business, significantly increasing its audience and revenue. Comfortable leading a group and taking responsibility.

## TECHNOLOGIES

**Languages:** JavaScript, TypeScript

**Front-End:** React, Redux, Bootstrap, Material UI, D3 Visualization, HTML5, CSS, SASS/ LESS

**Back-End:** Node.js, Express, Sequelize, PostgreSQL, Mongoose, MongoDB

**Relevant Libraries or Frameworks:** Auth0, MercadoPago PRO, Framer Motion, Jest, Wordpress

**Tools:** Git, Github workflow, Trello

## FEATURED PROJECTS

### Carry – Car Rental / [Link](#)

May 22 / Jun 22

- Collaborated with a team of 6 developers to build from the ground up, a fully functional full-stack web application for a car rental business.
- Main user features include authentication, searching for car availability on chosen date and location, sorting and filtering of results, payment gateway, bookings management, and optionally leaving a review after the rental conclusion.
- Admin features are an authorization-protected section to visualize statistics, add new cars and locations, or manage users and bookings.
- **Environment:** React 18 (Vite), Redux Toolkit, Node, Express, PostgreSQL, Auth0, Mercado Pago Pro.

### The Puppy Catalog / [Link](#)

Apr 22 / May 22

- Designed, developed, and deployed a full stack Single Page Application and API about dog breeds, capable of searching, sorting, filtering, and creating dogs through a form. Custom implemented data validation and pagination. Backend contains unit testing.
- **Environment:** React 17 (CRA), Redux v4, Node, Express, PostgreSQL, Jest.

### Weather App

Mar 22 / Apr 22

- Designed and developed a straightforward weather app with search functionalities to check the climate in any city worldwide, consuming the OpenWeatherMap API.
- **Environment:** React (Vite), CSS Modules, Framer Motion.

### Leka Publicidad / [Link](#)

Feb 19 / Feb 19

- Adapted, partially redesigned, and enhanced an HTML5 and CSS template to build a neat and SEO-positioned business website with an email-integrated contact form.

- Increased the audience by 100% and the revenue by 65% on a YoY basis.
- **Environment:** HTML5, CSS, Bootstrap, Javascript, PHP.

## PROFESSIONAL EXPERIENCE

### Bootcamp Full-Stack Teaching Assistant

Henry Bootcamp, Buenos Aires, Argentina

Apr 22 / Jun 22

- Coordinate a group of students to achieve integration into the study group.
- Guide students in the first steps of the course.
- Assist to solve exercises and promote group collaboration (Pair Programming)
- Propose ideas to improve the Bootcamp processes.

### Winemaking

Australia, New Zealand, USA, Germany

Feb 19 / Dec 21

- Had the opportunity to work in the winemaking industry for three years, in renowned companies with talented people, learning valuable soft and hard skills.

### Personal goal pursuit

Australia & New Zealand

Jan 16 / Nov 21

- Challenged me to live, work and successfully integrate with the communities of Australia and New Zealand
- Traveled to 30+ countries, discovered and interacted with dissimilar cultures.

### Molecular Biology Analyst

Hospital Italiano de Buenos Aires, Buenos Aires, Argentina

Dec 12 / Sep 15

- Effectively executed, interpreted, and reported thousands of results of sensible clinical analyses on time, working both as part of a team and independently.

### Researcher

Fundacion Pablo Cassara, Buenos Aires, Argentina

Oct 10 / Dec 12

- Developed an inquiring mind, patience, and the ability to work with abstract concepts and enhanced my communication and problem-solving skills.

## PROFESSIONAL EDUCATION

### Full Stack Web Developer / [🔗 Link](#)

Henry Bootcamp. 700 hours of theoretical and practical coursework

Mar 22 / Jun 22

### Software Engineer / [🔗 Link](#)

freeCodeCamp. Earned 5 certifications of ~300 hours of coursework each.

Dec 18 / Feb 19

### B.Sc. in Biotechnology

Universidad Nacional de General San Martín. 5 years degree + bachelor's thesis.

Feb 06 / Mar 12

## COMPLEMENTARY EDUCATION

### The Complete Node.js Course

CodeWithMosh. 220 lessons. 15 hours of video.

Jun 20

### The Ultimate TypeScript Course

CodeWithMosh. 120 lessons. 5 hours of video.

Jul 22

## LANGUAGES

**English.** Full Professional Proficiency (C1).

**Spanish.** Native.
